DETAILED ACTION

Claims 1, 2, 7 and 8 are currently pending in the instant application, are allowable over the prior art of record and are renumbered as claims 1-4.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Claim 1 (page 6 of the amended claims filed 23 October 2003), delete "when" from the definition of OR26 and OR27, line 21 of page 6, so the definition of OR26 and OR27 will be --taken together, form a cyclic boronic ester where said cyclic boronic ester contains from 2 to 20 carbon atoms--.

Claim 1 was amended to make the claim more grammatically appropriate.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to the compound of the formula (I) wherein A3 is valine and OR26 and OR27 form a cyclic boronic ester. The closest prior art of record, EP 0471651, which discloses the compounds of the formula I which can contain a cyclic boronic ester and wherein Y is a sequence of n amino acids with a preference towards proline, fails to teach or suggest applicants instantly claimed invention wherein in the compound OR26 and OR27 form a cyclic boronic ester and the heterocycle is a 5-7 membered heterocycle containing 2 nitrogen atoms.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
